Dear Maureen,

Sorry, about the delay—the publication list didn't get mailed and I've been at the Gordon Res. Conferences for the last two weeks. Enclosed is a ~~the~~ publication list. I'm working on a compound to compound response to your list.

While the levels appear to be low there are a number of known animal carcinogens on that list e.g. benzo(a)pyrene, benz(a)anthracene, chrysene, etc.

I'll try to get my response out by the end of the week. Meanwhile my phones are back in order: FTS 684-7482 684-7423

Sincerely,

Bernie Donill & Dick Bodl (his supervisor)
